

Are there any restrictions on how many bags I can bring?

The FAA has limited passengers flying within the United States to *one* piece of carry-on baggage and *one* personal item per passenger. Personal items may include: think purses, totes, computer bags, briefcases, diaper bags and kids backpacks.

You can check up to 6 bags each direction. For more information about baggage sizes and pricing, view our [Baggage Options](#) page.

Note: Remember that you can save a lot by [purchasing](#) your carry-on or checked bags early.
