

I need help finding my reservation

Finding your reservation and managing your booking is easy. Just put you last name associated with the reservation and your confirmation code in our Manage Trip tool [here](#).

The image shows a dark-themed search form titled "MY TRIP/CHECK-IN". It features two input fields: "Last Name*" and "Confirmation Code*", each with a white text box. Below the "Last Name*" field is a small link that says "Find your Confirmation Code". To the right of the input fields is a green button with a magnifying glass icon and the text "SEARCH".

For information on how to locate your confirmation code visit our confirmation code [instructions](#) page.

If you provided an email address at the time of booking, you should have received a confirmation email shortly after booking. This also contains your six-digit confirmation code (*don't forget to check your junk folder!*).
