

How can Frontier assist travelers who are hard of hearing or visually impaired?

If you need assistance for a customer who is deaf/hard of hearing, or is blind/sight impaired, please let us know how we can assist:

- Add your request when booking, or update it later through [Manage Trips](#)
- At the airport or onboard, let a Frontier crew member know you need assistance
- Onboard, we'll work with you to establish a way to share important flight information with you
