

Do I need to wear a mask on the plane or in the airport?

Frontier Airlines customers, crew members and other team members are **no longer required to wear masks** onboard Frontier aircraft.

For international travel, mask requirements remain dependent on the arrival/departure country's regulations. Individual airports and municipalities may still require masks, please check the policy at your destination prior to departure. Per CDC guidance, regardless of whether a mask mandate is in effect, individuals are encouraged to continue to wear masks in indoor settings.

For more information about masks and COVID-19 visit the [U.S. Department of Transportation](#).
