

Can I use my GoWild! Pass to book connecting flights?

Yes, connecting itineraries may be available, depending on your origin and destination, flight schedules and seat availability. All terms and conditions for GoWild! Pass use also apply to any connecting itineraries, notably that flights can be booked and confirmed the day before flight departure for domestic travel or starting 10 days before flight departure for international travel, and that flights and seats are subject to availability; last seat availability is not guaranteed.
